

Issued on 03/15/2012 - Rel. # 3 on 12/09/2016

1 / 11

In conformity to Regulation (EU) 2015/830 - In conformity to Regulation (EC) 1907/2006

SECTION1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product code : ILSAINTEGER
Product line: ILSATEC

1.2. Relevant identified uses of the substance or mixture and uses advised against

Fertilizers
Sectors of use:
Agriculture, forestry, fishery[SU1]
Product category:
Fertilizers

Uses advised against
Do not use for purposes other than those listed

1.3. Details of the supplier of the safety data sheet

ILSA spa - Via Quinta Strada 28, 36071 Arzignano (VI)
Tel. +39 0444 452020 Fax +39 0444 456864

Email: info@ilsagroup.com

1.4. Emergency telephone number

NHS Direct in England or Wales 0845 46 47 or NHS 24 in Scotland 08454 24 24 24

SECTION2. Hazards identification

2.1. Classification of the substance or mixture

2.1.1 Classification according to Regulation (EC) No 1272/2008:

Pictograms:
GHS05, GHS07

Hazard Class and Category Code(s):
Acute Tox. 4, Eye Dam. 1

Hazard statement Code(s):
H302 - Harmful if swallowed.
H318 - Causes serious eye damage.

Harmful product: do not ingest.

Issued on 03/15/2012 - Rel. # 3 on 12/09/2016

2 / 11

In conformity to Regulation (EU) 2015/830 - In conformity to Regulation (EC) 1907/2006

If brought into contact with eyes, the product causes serious damages to eyes, such as an opaque cornea or injury to iris.

2.2. Label elements

Labelling according to Regulation (EC) No 1272/2008:

Pictogram, Signal Word Code(s):
GHS05, GHS07 - Danger

Hazard statement Code(s):
H302 - Harmful if swallowed.
H318 - Causes serious eye damage.

Supplemental Hazard statement Code(s):
not applicable

Precautionary statements:

Prevention

P280 - Wear protective gloves/protective clothing/eye protection/face protection.

Response

P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Disposal

P501 - Dispose of contents/container in accordance with valid regulations.

Contains:

Nitric acid, ammonium calcium salt

2.3. Other hazards

Substance/mixture does not meet the criteria for PBT/vPvB according to Regulation (EC) No 1907/2006, Annex XIII

The use of this chemical entails the obligation of " Risk Assessment " by the employer in accordance with the provisions of the Safety Regulation. Workers exposed to this chemical agent must not undergo health checks if the results of the risk assessment shows that , in relation to the type and amount of chemical agent and the mode and frequency of exposure to that agent , there is only a "moderate risk" to the health and safety of workers and the measures provided for in the same Decree . They are sufficient to reduce the risk .

SECTION3. Composition/information on ingredients

3.1 Substances

Irrilevant

3.2 Mixtures

Refer to paragraph 16 for full text of hazard statements

Substance	Concentration	Classification	Index	CAS	EINECS	REACH
Nitric acid, ammonium calcium salt	> 30 <= 50%	Acute Tox. 4, H302; Eye Dam. 1, H318		15245-12-2	239-289-5	01-2119493 947

SECTION4. First aid measures

4.1. Description of first aid measures

Inhalation:

Air the area. Move immediately the contaminated patient from the area and keep him at rest in a well ventilated area. If you feel unwell seek medical advice.

Direct contact with skin (of the pure product):

Wash thoroughly with soap and running water.

Direct contact with eyes (of the pure product):

Wash immediately and thoroughly with running water, keeping eyelids open for at least 10 minutes, then protect your eyes with a dry sterile gauze. Seek medical advice immediately

Do not use eye drops or ointments of any kind before the examination or advice from an oculist.

Ingestion:

The product is harmful and can cause irreversible damages even following a single exposure if swallowed.

Absolutely do not induce vomiting or emesis. Seek medical advice immediately.

4.2. Most important symptoms and effects, both acute and delayed

No data available.

4.3. Indication of any immediate medical attention and special treatment needed

No data available.

SECTION5. Firefighting measures

5.1. Extinguishing media

Advised extinguishing agents:

Water spray, CO₂, foam, dry chemical, depending on the materials involved in the fire.

Extinguishing means to avoid:

Water jets. Use water jets only to cool the surfaces of the containers exposed to fire.

5.2. Special hazards arising from the substance or mixture

No data available.

5.3. Advice for firefighters

Use protection for the breathing apparatus

Safety helmet and full protective suit.

The spray water can be used to protect the people involved in the extinction

You may also use selfrespirator, especially when working in confined and poorly ventilated area and if you use halogenated extinguishers (Halon 1211 fluobrene, Solkan 123, NAF, etc...)

Keep containers cool with water spray

SECTION6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1 For non-emergency personnel:

Leave the area surrounding the spill or release. Do not smoke

6.1.2 For emergency responders:

Wear gloves and protective clothing

Eliminate all unguarded flames and possible sources of ignition. No smoking.

Provision of sufficient ventilation.

Issued on 03/15/2012 - Rel. # 3 on 12/09/2016

4 / 11

In conformity to Regulation (EU) 2015/830 - In conformity to Regulation (EC) 1907/2006

Evacuate the danger area and, in case, consult an expert.

6.2. Environmental precautions

Contain spill with earth or sand.
If the product has entered a watercourse or in sewers notify it to the the authorities.
Discharge the remains in compliance with the regulations

6.3. Methods and material for containment and cleaning up

6.3.1 For containment:
Rapidly recover the product, wear a mask and protective clothing
Recover the product for reuse, if possible, or for removal. Possibly absorb it with inert material.
Prevent it from entering the sewer system.

6.3.2 For cleaning up:
After wiping up, wash with water the area and materials involved

6.3.3 Other information:
None in particular.

6.4. Reference to other sections

Refer to paragraphs 8 and 13 for more information

SECTION7. Handling and storage

7.1. Precautions for safe handling

Avoid contact and inhalation of vapors
Wear protective gloves/protective clothing/eye protection/face protection.
At work do not eat or drink.
Do no eat, drink or smoke when using this product.
See also paragraph 8 below.

7.2. Conditions for safe storage, including any incompatibilities

Keep in original container closed tightly. Do not store in open or unlabeled containers.
Keep containers upright and safe by avoiding the possibility of falls or collisions.
Store in a cool place, away from sources of heat and `direct exposure of sunlight.

7.3. Specific end use(s)

Agriculture, forestry, fishery:
Fertilizers.

SECTION8. Exposure controls/personal protection

8.1. Control parameters

Related to contained substances:
Nitric acid, ammonium calcium salt:
No exposure limit value known.

Recommended monitoring procedures : If this product contains ingredients with exposure limits , you may be asked personal monitoring , workplace atmosphere and biology to determine the effectiveness of the ventilation or other control measures and / or the need to use respiratory protective equipment . Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance on methods for the determination of hazardous substances.

- Substance: Nitric acid, ammonium calcium salt
DNEL
Systemic effects Long term Workers inhalation = 98 (mg/m3)

Issued on 03/15/2012 - Rel. # 3 on 12/09/2016

5 / 11

In conformity to Regulation (EU) 2015/830 - In conformity to Regulation (EC) 1907/2006

Systemic effects Long term Workers dermal = 13,9 (mg/kg bw/day)
Systemic effects Long term Consumers inhalation = 25,2 (mg/m³)
Systemic effects Long term Consumers dermal = 8,33 (mg/kg bw/day)
Systemic effects Long term Consumers oral = 8,33 (mg/kg bw/day)
PNEC
Sweet water = 0,45 (mg/l)
Sea water = 0,045 (mg/l)
intermittent emissions = 4,5 (mg/l)
STP = 18 (mg/l)

8.2. Exposure controls

Appropriate engineering controls:
Agriculture, forestry, fishery:
Use in accordance with good agricultural practices.

Individual protection measures:

(a) Eye / face protection
Wear mask

(b) Skin protection

(i) Hand protection
When handling the pure product use chemical resistant protective gloves (EN 374-1/EN374-2/EN374-3)

(ii) Other
When handling the pure product wear full protective skin clothing.

(c) Respiratory protection
Use adequate protective respiratory equipment (EN 141)

(d) Thermal hazards
No hazard to report

Environmental exposure controls:

Related to contained substances:
Nitric acid, ammonium calcium salt:

Appropriate engineering controls: If use can generate dust, fumes, gas, vapor or mist, use process enclosures, use local exhaust ventilation controls, or other control devices necessary to maintain worker exposure to pollutants in 'air below any recommended or prescribed by the law.

Individual protection measures

Hygiene measures: before eating, smoking and using the lavatory and at the end of day, wash your hands, forearms and face thoroughly after handling chemical products.

protection device for eye and face: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.

Recommended: Safety glasses that ensure perfect positioning on the face CEN: EN166

Skin protection

Hand protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. > 8 hours (breakthrough time): Gloves: under normal conditions of use must wear protective gloves.

Body protection: Additional body garments should be used (eg. sleeves, apron, gauntlets, disposable suits, etc.) based on the task being performed.

Other skin protection: Under normal conditions of handling and use, it should take no additional skin protection

measures.

Respiratory protection: In case of inadequate ventilation wear respiratory protection. Recommended: The P2 filter (EN 143)

Environmental exposure controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of the legislation on environmental protection. In some cases, users will need to fume scrubbers, filters or engineering modifications to the process equipment to reduce emissions to acceptable levels.

SECTION9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical and chemical properties	Value	Determination method
Appearance	Liquid	
Odour	Not determined	
Odour threshold	Not determined	
pH	5 - 6	
Melting point/freezing point	Not determined	
Initial boiling point and boiling range	Not determined	
Flash point	Not determined	
Evaporation rate	Not determined	
Flammability (solid, gas)	Irrelevant	
Upper/lower flammability or explosive limits	Not determined	
Vapour pressure	Not determined	
Vapour density	Not determined	
Relative density	1.3 - 1.4 kg/dm ³	
Solubility	100% in H ₂ O	
Water solubility	Not determined	
Partition coefficient: n-octanol/water	Not determined	
Auto-ignition temperature	Not determined	
Decomposition temperature	Not determined	
Viscosity	Not determined	
Explosive properties	Not determined	
Oxidising properties	Not determined	

9.2. Other information

No data available.

SECTION10. Stability and reactivity

10.1. Reactivity

Related to contained substances:

Nitric acid, ammonium calcium salt:

No specific test data related to reactivity available for this product or its ingredients.

Issued on 03/15/2012 - Rel. # 3 on 12/09/2016

7 / 11

In conformity to Regulation (EU) 2015/830 - In conformity to Regulation (EC) 1907/2006

10.2. Chemical stability

No hazardous reaction when handled and stored according to provisions.

10.3. Possibility of hazardous reactions

There are no hazardous reactions

10.4. Conditions to avoid

Nothing to report

10.5. Incompatible materials

It can generate toxic gases to contact with oxidants mineral acids, elementary metals.

It can ignite in contact with elementary metals, organic peroxides, organic water peroxides.

10.6. Hazardous decomposition products

Does not decompose when used for intended uses.

SECTION 11. Toxicological information

11.1. Information on toxicological effects

ATE(mix) oral = 1.515,2 mg/kg

ATE(mix) dermal = No data available

ATE(mix) inhal = No data available

(a) acute toxicity: Harmful product: do not ingest.

Nitric acid, ammonium calcium salt: Nitric acid, ammonium salt and calcium

Oral LD50, rat, 500 mg / kg 423 Acute Oral toxicity - Acute Toxic Class Method, IUCLID 5

Dermal LD50, Rat, > 2,000 mg / kg OECD 402, IUCLID 5

Harmful if swallowed.

(b) skin corrosion/irritation Nitric acid, ammonium calcium salt: Skin: No known significant effects or critical hazards.

Nitric acid, ammonium calcium salt: Skin: No known significant effects or critical hazards.

(c) serious eye damage/irritation: If brought into contact with eyes, the product causes serious damages to eyes, such as an opaque cornea or injury to iris.

Nitric acid, ammonium calcium salt: Nitric acid, ammonium salt and calcium

Eyes - Severe irritant OECD 405, rabbit, 24-72 h, 21 days, IUCLID 5

Eyes : Causes serious eye damage.

Nitric acid, ammonium calcium salt: Nitric acid, ammonium salt and calcium

Eyes - Severe irritant OECD 405, rabbit, 24-72 h, 21 days, IUCLID 5

Eyes : Causes serious eye damage.

(d) respiratory or skin sensitization: Nitric acid, ammonium calcium salt: Skin: Not sensitizing.

Respiratory: Not determined.

(e) germ cell mutagenicity: Nitric acid, ammonium calcium salt: No mutagenic effect.

(f) carcinogenicity: Nitric acid, ammonium calcium salt: No carcinogenic effect.

(g) reproductive toxicity: Nitric acid, ammonium calcium salt: Nitric acid, ammonium salt and calcium

maternal toxicity Negative

fertility Negative

Developmental toxicity Negative

Rat species

Oral Dose : 1,500 mg / kg OECD 422

Exposure 53 days

References IUCLID 5

No known significant effects or critical hazards.

(h) specific target organ toxicity (STOT) single exposure: Nitric acid, ammonium calcium salt: Inhalation : May give off gas, vapor or dust that is very irritating to the respiratory system . Exposure to decomposition products may cause a health hazard. Following exposure may cause serious delayed effects.

Ingestion : Harmful if swallowed . May cause burns to mouth, throat and stomach.

Skin contact : No known significant effects or critical hazards.

Eye contact : Causes serious eye damage.

(i) specific target organ toxicity (STOT) repeated exposure Nitric acid, ammonium calcium salt: Teratogenicity
No known significant effects or critical hazards .

Delayed and immediate effects and also chronic effects from short and long term exposure

Short- term exposure

Potential immediate effects : Contraindications to health are considered unlikely, when the product is handled.

Potential delayed effects : None identified .

long-term exposure

Potential immediate effects : Contraindications to health are considered unlikely, when the product is handled.

Potential delayed effects : None identified.

Potential Chronic Health Effects

nitric acid , ammonium salt and calcium

Sub-acute NOAEL Oral

Rat

> 1000 mg / kg OECD 407

28 days

IUCLID 5

(j) aspiration hazard: Nitric acid, ammonium calcium salt: Respiratory: No known significant effects or critical hazards.

Related to contained substances:

Nitric acid, ammonium calcium salt:

Symptoms related to the physical, chemical and toxicological

Inhalation: No specific data.

Ingestion: Adverse symptoms may include the following: stomach pains

Skin contact: Adverse symptoms may include the following: pain or irritation redness blistering may occur

Eye contact: Adverse symptoms may include the following: pain watering redness

Conclusion / Summary: Not toxic.

General: No known significant effects or critical hazards.

Carcinogenicity: No known significant effects or critical hazards.

Mutagenicity: No known significant effects or critical hazards.

Teratogenicity: No known significant effects or critical hazards.

Developmental effects: No known significant effects or critical hazards.

Fertility effects: No known significant effects or critical hazards.

Toxic kinetic effects

Absorption: Absorbed quickly.

Distribution: Systemic Enter the bloodstream without passing through the liver tissue.

Metabolism: Metabolized rapidly. Metabolized in: Ca^{2+} + NH_4^+ + NO_3^-

Elimination: excreted through the urine. The chemical and its metabolites are fully excreted and does not accumulate within the body.

LD50 (rat) Oral (mg/kg body weight) = 500

LD50 Dermal (rat or rabbit) (mg/kg body weight) = 2000

SECTION 12. Ecological information

12.1. Toxicity

Related to contained substances:

Issued on 03/15/2012 - Rel. # 3 on 12/09/2016

9 / 11

In conformity to Regulation (EU) 2015/830 - In conformity to Regulation (EC) 1907/2006

Nitric acid, ammonium calcium salt:

Nitric acid, ammonium salt and calcium

Acute LC50 447 mg / l Fresh water Fish - Fish, 48 h, IUCLID 5

Acute EC50 > 100 mg / l Fresh water OECD 202, Aquatic invertebrates Daphnia, 48 h, IUCLID5

Acute LC50 > 100 mg / l Fresh water OECD 201, Aquatic plants - Algae, 72 h, IUCLID 5

The product does not show any bioaccumulation phenomena. The product is not considered harmful to the environment when used properly according to directions.

C(E)L50 (mg/l) = 100

Use according to good working practices to avoid pollution into the environment.

12.2. Persistence and degradability

Related to contained substances:

Nitric acid, ammonium calcium salt:

Readily biodegradable in plants and soils.

Nitric acid, ammonium salt and calcium

Not relevant for inorganic substances.

12.3. Bioaccumulative potential

Related to contained substances:

Nitric acid, ammonium calcium salt:

Nitric acid, ammonium salt and calcium

LogPow < 0

No known significant effects or critical hazards.

12.4. Mobility in soil

Related to contained substances:

Nitric acid, ammonium calcium salt:

Coefficient of soil / water partition (KOC) : < 1

Mobility : This product can be transported by surface water or groundwater due to its water solubility.

12.5. Results of PBT and vPvB assessment

Substance/mixture does not meet the criteria for PBT/vPvB according to Regulation (EC) No 1907/2006, Annex XIII

12.6. Other adverse effects

No adverse effects

SECTION 13. Disposal considerations

13.1. Waste treatment methods

Do not reuse empty containers. Dispose of them in accordance with the regulations in force. Any remaining product should be disposed of according to applicable regulations by addressing to authorized companies.

Recover if possible. Send to authorized discharge plants or for incineration under controlled conditions. Operate according to local and National rules in force

Issued on 03/15/2012 - Rel. # 3 on 12/09/2016

10 / 11

In conformity to Regulation (EU) 2015/830 - In conformity to Regulation (EC) 1907/2006

SECTION14. Transport information

14.1. UN number

Not included in the scope of application regulations concerning the transport of dangerous goods: by road (ADR); by rail (RID); by air (ICAO / IATA); by sea (IMDG).

14.2. UN proper shipping name

None

14.3. Transport hazard class(es)

None

14.4. Packing group

None

14.5. Environmental hazards

None

14.6. Special precautions for user

No data available.

14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code

Don't intended safety peel-mell.

SECTION15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Related to contained substances:

Nitric acid, ammonium calcium salt:

EU Regulation (EC) No . 1907/2006 (REACH)

Annex XIV - List of substances subject to authorization Substances of very high concern

Not applicable.

Other EU regulations

Europe inventory : All components are listed or exempted .

List IPPC (integrated environmental authorization) - Air : Not listed

List IPPC (integrated environmental authorization) - Water: Not listed

Seveso II Directive

This product is not controlled under the Seveso II Directive .

national regulations

Legislative Decree no . 152/06 : Not classified.

Other information : Commission Regulation (EC) No . 2003/2003 , Legislative Decree no. 75/2010.

Notes : At the level of our knowledge no other specific applicable local or national regulations.

15.2 Chemical Safety Assessment : Complete.

Italy: D.Lgs. 3/2/1997 n.52; D.Lgs 14/3/2003 n.65; D.Lgs. 09/04/2008 n.81; D.P.R. 01/08/2011 n.151; D.M.

Issued on 03/15/2012 - Rel. # 3 on 12/09/2016

11 / 11

In conformity to Regulation (EU) 2015/830 - In conformity to Regulation (EC) 1907/2006

03/04/2007; D.Lgs. 26/06/2015 n.105; D.Lgs. 15/02/2016 n.39

UE: REG 2006/1907/CE (REACH); REG 2008/1272/CE (CLP); REG 2009/790/CE; DIR 2006/8/CE; DIR 2012/18/UE; DIR 2014/27/UE

15.2. Chemical safety assessment

The supplier has made an assessment of chemical safety

SECTION 16. Other information

16.1. Other information

Points modified compared to previous release: 2.2. Label elements, 2.3. Other hazards, 4.3. Indication of any immediate medical attention and special treatment needed, 6.1. Personal precautions, protective equipment and emergency procedures, 8.2. Exposure controls

Description of the hazard statements exposed to point 3

H302 = Harmful if swallowed.

H318 = Causes serious eye damage.

Classification based on data of all mixture components
